1262.08 ACCESSORY USE REGULATIONS.

Buildings, structures and uses accessory to dwelling units shall conform to the standards contained in this section.

1262.08(g) Home Occupations. The purpose of this division is to set forth regulations that control the establishment and operation of home occupations. The intent of these regulations is to control the nonresidential use of a residential dwelling unit so that the nonresidential use is limited to an accessory use, and shall not in any way adversely affect the uses permitted in the residential district of which they are a part. Compliance with these regulations is expected to result in all home occupations being located and conducted in such a manner that their existence is not detectable in any manner from the outside of the dwelling unit.

- (1) The home occupation shall be clearly incidental and subordinate to the residential use of the property.
- (2) No sign or display, except for a nameplate sign, shall be permitted which indicates from the exterior that the building is being used for any purpose other than that of a dwelling.
- (3) No person other than members of the immediate family residing on the premises shall be employed in the home occupation.
